### **Evosys Laser establishes subsidiary in Suzhou, China**

**Just two years after its foundation, Evosys Laser GmbH opens a subsidiary in Suzhou, China. With the "Evosys Suzhou Laser System Co. Ltd.", the company is taking another planned step to better serve its customers in China.**

**Erlangen, March 2018:** Following the successful market entry of Evosys Laser GmbH in Germany, Europe and the USA, Evosys Laser GmbH was able to establish its own branch office in Asia. Managing Director Frank Brunnecker: "It was planned from the outset to provide our customers in China - mostly from the automotive and consumer electronics sectors - with on-site support. Due to the positive business development, this step has now been implemented together with our partner DCT Co. Ltd."

Under the leadership of GM Andreas Kraus and COO Frank Sun, the subsidiary was officially launched on January 1, 2018 as Evosys Suzhou Laser System Co. The team of five employees is mainly responsible for sales and service, while a laser plastic welding machine of next generation is available for sampling in the own on-site technical centre.

The new premises were opened on March, 13 as part of a small celebration ceremony.

#### **About Evosys Laser:**

Evosys Laser GmbH develops and manufactures a new generation of customized laser systems for material processing at its Erlangen site. With the many years of market and process experience of its employees, the company offers creative and innovative solutions worldwide for integration into automation solutions. The company's core competence is laser welding of plastics.

In addition to mechanical engineering, the company also offers a range of services from design consulting and sample production in its own pilot plant to after-sales service.
